Fundraising & Communications Associate

Overview

iTeach Schools runs free and high-impact secondary schools and a college-to-career program for the most disadvantaged students of Pune and PCMC. Like many Indian cities, both of these public education systems only go up to Grade VII, leading to the poorest students being unable to finish their schooling. In 2023, with a staff of 250 members across nine schools, we will serve 2800 students and 2000+ alumni - giving students a fighting chance at college, career, and citizenship. We aim to grow to 30 schools and 10,000 students over the next five years.
