JOB DESCRIPTION

Role: Marketing
Reporting to: VP-Growth
Location: Bangalore

About Amuse Labs
Since its beginning at Stanford University in 2013, Amuse Labs has established in the global publishers' market, as a leading provider of smart games platform, for top leading news publishers of the world, such as The Washington Post, The Guardian, The Irish Times, Gulf News, The Los Angeles Times, El Pais, The Indian Express, and others, as a SaaS product.

Amuse Labs was co-founded by Sudheendra Hangal, a Ph.D. from Stanford's Computer Science Department; Jaya Hangal, a member of the team that developed Java at Sun Microsystems; and John Temple, a veteran journalist who has been Managing Editor of the Washington Post and President at First Look Media.

About the role
The company plans to expand this market further and also foray into new market segments with promising applications like advertising. To support these plans, the company seeks individuals interested in helping grow the business and willing to be flexible to take on an active role working across different areas in the business team.

You will play a crucial role in executing our marketing plans to attract, engage, and retain our target audience. You will collaborate closely with the business team to help create compelling and informative content that drives new inbound interest and sustained engagement.

Key responsibilities:
- Design and develop marketing artifacts and collateral like brochures, videos, to effectively communicate our value proposition, highlight multiple use cases, and promote our platform.
- Assist in executing digital marketing campaigns, across multiple channels and geographies, to achieve business results.
- Create high-quality, SEO-optimized content including blogs, social media posts, videos, etc for the company's external facing channels.
- Manage the content calendar and ensure timely delivery of content assets across various channels and platforms.
- Support participation in conferences and forums, with the required marketing collateral
- Monitor, analyse and report key metrics to improve marketing activities based on insights.
- Build communities of games creators and enthusiasts, plan and execute community outreach activities from time to time to grow usage of our platform among them.
- Develop a strong understanding of the product, competition, industry trends to be able to articulate our value proposition, product features, etc.

Key skills/attributes:
- MBA, with at least 1-2 years of experience in digital marketing or a similar role in SaaS or technology product companies.
- Strong writing skills to craft compelling and engaging content for the target audience.
- Strong understanding of digital marketing tools and techniques, SEO best practices.
- Creative, detail-oriented, organized, hands-on and enthusiastic about growing the business.
- Learning mindset and ability to adapt to changing circumstances in a start-up environment.

- Excellent communication skills – both written and oral.
- International exposure, knowledge of multiple languages would be a plus.
- Personal interest in puzzles and smart games is desirable.
