Customer Support Executive

About Us

Amuse Labs is a growing startup based out of Bangalore and San Francisco, and is the leading online provider of smart games such as crossword and sudoku puzzles. It was born out of a collaboration between the computer science and journalism departments at Stanford University, and counts as its customers some of the leading news publishers of the world, such as The Washington Post, The Guardian, The New Yorker, The Atlantic, The Los Angeles Times, Vox.com, The Times Of India, and others. Your work will thus have worldwide visibility and impact. You will be mentored by senior technologists and can expect to work on fast-paced and innovative projects with a world-class team.

We are based out of a WeWork office in Bangalore. Your salary will be comparable to that of MNC product companies and commensurate with experience. We are a small and tightly-knit team of about 25 people and looking to grow quickly, but selectively.

Basic requirements

Prior experience is optional, but you must:

- Have excellent writing and verbal skills with international users
- Have interest and ability to understand a technical product in depth
- Have a customer-centric mindset. We'd like you to get joy from delivering exceptional customer experiences and driving long-term customer satisfaction.
- Enjoy debugging and troubleshooting technical products at a user level
- Have empathy for ordinary users trying to use sophisticated technology products
- Have a high level of personal responsibility. This means working in a fast-paced environment and meeting deadlines.
- Possess a bachelor's or master's degree in the Humanities, Social Sciences or an IT related field.

A personal interest in puzzles and games (Crosswords, Sudoku, etc.) is useful, although not a requirement. Before you apply, please go through our website at https://amuselabs.com to know more about our products. (We will gauge how thoroughly you have done so in the interviews.)

Day-to-day Responsibilities

- Provide support for end users of the PuzzleMe platform by responding to issues reported by customers via email (usually within 1 business day.)
- Track and resolve customer issues to their satisfaction.
- Work with customers and the internal team to research, diagnose, troubleshoot and identify solutions and workarounds

Strategic responsibilities

- Gather customer feedback and insights to contribute to the continuous improvement of products and services, working closely with the product development team.
- Build a knowledge base to educate and help customers and keep this information updated.
- Use help desk software to create support dashboards and reports that help make business decisions.
- Look for opportunities to find creative solutions to all problems, small and large.

Career opportunities

Amuse Labs provides a lot of opportunities for growth. This position would be an excellent start for someone interested in a career based on customer success or product management in tech companies.

Remuneration

Fixed CTC will be 15-18 LPA, depending on experience and fit for the position (plus an annual bonus paid separately.). Medical insurance.

Note: We have a rigorous interview process where we try to ensure that you are a good fit for us, and we are a good fit for you. If you are shortlisted, please expect several rounds and a visit to our office in Bangalore. Please be prepared to provide references from reliable people (any recommendations on your LinkedIn profile may also help pass screening).
