**Digital Marketing Manager, CCS Academy**
**Reporting Manager: Head, CCS Academy**

**City:** New Delhi

**Work Experience:** 0-1 years and above

**Deadline:** 30th December 2023

**Job Description:**

**About CCS and CCS Academy** - CCS has pioneered educational and outreach programs on a liberal approach to public policy for a diverse audience of students, journalists, development leaders and young professionals through its Academy. The academy introduces, engages and connects with students and influencers to develop new leaders with new ideas to change the climate of opinion towards liberal approach to public policy. It does so through certificate courses, credit programs, colloquia and lecture series. In its 21st year of translating policy into practice, CCS boasts of over 10,000 alumni, many of whom have sought careers in the fields of public policy, journalism, education, politics and so on.

**About the role –** CCS, in its 21st year, aims to reach out to a more diverse and engaged set of future leaders, focusing on its academy's work in policy training in Delhi, Hyderabad, Chennai, Mumbai, Bangalore, and Pune. To get the targeted students as well as young professionals across the country to attend our courses and training programs is the key to engaging them in becoming our thought leaders. This is where the role of the digital marketing manager will come into picture. Based in CCS' head office in New Delhi, the digital marketing manager will be responsible for all paid publicity campaigns of CCS Academy, the SEM and SEO management, the website's analytics and management, social media marketing strategy and execution, and overall online media advocacy and marketing plan.

**Roles and responsibilities:**

- End to end digital/paid media strategy creation.
- Google Adwords, Social Ads & Analytics Technical Expertise
- Thorough understanding of SEM - Google Adwords, Social Ads, Google Analytics
- Expert in managing paid search campaigns.

- Excellent control on the following tasks- Keyword Bidding, Ad copy writing, re-marketing, content ads, Match type strategies, Landing page testing, most recent Adwords features
- Excellent understanding of Google Analytics and deriving to action items from data points
- Understanding academy's goals/objectives and its entire digital marketing needs including Search Engine Marketing (SEM), Social Media, Display Advertising
- Work jointly with internal team to drive campaign strategy & development
- Identifying the target audience for a particular media campaign and deciding how best to communicate to that audience.
- Execute the social media strategy through independent research, A/B testing, messaging, audience identification and impact assessment.
- Create social media calendars and syndication schedules.

**Skills and competencies:**

- Excellent communication and interpersonal skills: with the proven ability to establish and maintain positive relationships with a wide range of people including the ability to recruit, motivate and manage teams.
- Commitment to learning with an academic bent.
- High professional and ethical standards for handling confidential information.
- Good financial planning and budgetary skills.

**Assignment question:**

1. Think of a successful public event you attended in the last year that involved digital marketing strategy and execution. What made the event successful? How was the marketing done for the event? From the point of view of the digital marketeer what are some of the things you could have done differently and how?
