The most change you can enact within an organization is through its leaders – that's where we come in.

Business Analyst Role

Business Analysts provide specialized market insight and strategic guidance as a crucial member of the client engagement team, partnering with Consultants to deliver powerful, effective human capital solutions.

We view the position as the start of a rewarding, challenging and flexible career at EZ. To support your growth in the firm, you will receive exceptional training as well as frequent coaching and mentoring from colleagues in your team.

Start at the Top

- ***Experience real business concepts*** at a much broader and more sophisticated level, giving Business Analysts insight into the most strategic issues and problems that corporations face today
- ***Influence high-impact decisions*** from the top of an organization, partnering with C-suite on the most strategic choices they face
- ***Gain access to C-suite level*** immediately upon graduation, helping Analysts build expertise in an industry or function at an unparalleled rate

Broad Experience + Specialization

- ***Initial exposure to multiple industries and functions***, giving Analysts insights across the broader business landscape
- ***Develop expertise*** within one function or industry segment, becoming a point-person within the global organization
- ***Diversity of assignments*** allow Analysts to develop strategies across countless unique scenarios – in 2 years may have solved over 20 diverse client projects

What are we looking for

Our process is highly competitive and selective. Candidates must have demonstrated a solid academic record. We seek highly-motivated problem-solvers who possess intellectual curiosity, a readiness to tackle challenges, strong interpersonal and communication skills, team player, and qualitative analytical skills. Previous experience in a market research role, familiarity with databases, and acumen with Microsoft Office (Word, Excel, and PowerPoint) is desired. We may request a writing sample as the position requires superior writing skills.

Delivering output & documents

Communication skills

Egon Zehnder offers you a truly global expert career

While Egon Zehnder experts are drawn from an array of backgrounds, they all share certain qualities necessary to deliver the value our clients expect and to maintain the unique character of our Firm.

Experts operates across four levels based on their expertise in a sector or function.

Analyst Level

- Partners with and supports senior Experts colleagues on assignments, pitch preparation or knowledge management project as staffed
- Process documentation (profiles, status reports, pitch/project slides, etc.)
- Name generation and verification
- List generation and mapping for KM

Sr Analyst Level

- Manages projects (assignments, pitch preparation, etc.) in partnership with the consultant
- Creates high quality client documentation (role spec, CRs, mapping docs, etc)
- Begins market interaction for insights
- Validates, calibrates and prioritizes candidates

Associate Level

- Manages projects (assignments, pitch preparation, etc.) by setting the work plan and holding the client team (Consultants, Experts and EAs) accountable against agreed expectations
- Leverages consultants in the market to source and develop candidates on assignments
- Takes ultimate accountability for the quality and timeliness of client documentation

Expert Level

- Leads project management of assignments with full ownership, particularly in large account or multi service line situations
- Leverages consultants in the market to source, develop candidates, conduct informal/formal references on assignments
- Interviews candidates in partnership or independent of consultant depending on level
- Drives client documentation

Egon Zehnder offers you a truly global expert career
Opportunities to grow and develop

Global training program

- Egon Zehnder offers a global training program to all Experts from day 1
- At each level, the firm offers a specialised technical and soft skills training program focussing on building capability to deliver client outcome

Opportunity to work with global clients / colleagues

- Apprenticeship is taken very seriously at EZ! Working on global projects, is part of your day to day responsibility
- You will work on projects with colleagues across EZ offices. This will provide opportunities to hone your project management and soft skills

Professional growth

- Opportunity to build subject matter expertise in a field that you are passionate about
- Explore different roles for growth and learning. We have an established process for sharing details of new roles available in other offices/PGs
- Visit and work from global offices
