

Your Opportunity to Maximise is Here

Business Analyst

About Flipkart

Flipkart is committed to the cause of transforming commerce in India through our investments in made-in-India technology innovations, customer-centric features and constructs, a diverse category landscape and a world-class supply chain. With a customer base of over 350 million, product coverage of over 150 million across 80+ categories, focus on generating direct and indirect employment and a commitment to empowering generations of entrepreneurs and MSMEs and a sustainable growth strategy – Flipkart is maximizing for our customers, stakeholders, and the planet at large!

Flipkart is a part of the Walmart-owned Flipkart Group, which also includes group companies Flipkart Health+ and Cleartrip.

About the Function

Flipkart's vision is to make analytics part of its overarching competitive strategy, and push it up to decision makers at every level.

The Flipkart Analytics Team serves data driven decision making along with a diverse set of customers - from Business Teams to Supply Chain Teams to Product Teams. An Analyst is expected to grasp the underlying business product needs of these teams and develop reports/ analyses/ models that solves problems of those respective areas/ functions.

Do you have the passion to analyze data and impact the business materially through what you observe?

About the Role

Being part of Central Analytics Organization at Flipkart, you get an opportunity to work on diverse set of problems that cut across Marketing, Consumer as well as Seller Facing Products on Web & Mobile, Pricing, Customer, various Business Categories, end-to-end Supply Chain, Customer Support/ Call Centre and so on…

At Flipkart, high focus on Impact and Ownership allows for freedom for each to experiment and innovate. Pride is when you see the impact of what you have created.

The ability to see what your contribution does to the business is a rare experience, add to that the fact that the impact of it is felt by your friends and family in India - the experience is extremely gratifying.

Your Part

- You will work closely with internal Flipkart Teams like Product Managers, Business Leaders, Operations team, etc. to identify, define, collect, and track key business metrics for products or business processes.
- You will have an End to End problem in a given functional area. Problems could range from defining right performance metrics, measuring them and providing in depth root cause analysis in case of variations to doing insightful first principles based deep analysis to building machine learning models/ algorithms depending on merit and complexity of the problem.
- Pull data required to conduct business analysis, build reports, dashboards and metrics to monitor performance.
- Work closely with the stakeholders on a daily basis to drive data driven decisions.

Apart from all the general benefits of best in industry compensation, equity, healthcare etc., Flipkart prides in pulling all stops in ensuring you have Great Work, Great People and a Great environment. We call ourselves an incubator for analysts where you get all the optimal conditions to do and experience your best.

What we're looking for

- Exceptional problem solving and analytical skills.
- Strong mathematical, quantitative and statistical orientation.
- Strong understanding of classical as well as contemporary statistical modelling and machine learning techniques
- Exceptional Business acumen
- Good written and verbal communication skills.

- Ability to multitask and work on a diverse range of requirements.
- Technical capabilities: SQL, Hive, Excel, R, Python, Spark, etc.

Why work with us?

At Flipkart, we promise to maximize what you care about the most. You'll get an opportunity to leave a mark and create your own legacy, you'll have freedom to experiment, learn and grow, you'll get to work with the best in our inclusive teams and experience our culture of care to ensure that you can focus on doing your best work.

Every Flipster is a Maximiser - Curious, Audacious, Entrepreneurial, Purpose-Driven, Excited By Big Challenges, A Team Player and Inclusive. If this is who you are, then Flipkart is the place where you can thrive.

We understand that your own aspirations and journeys are unique. So you choose what you want to maximise, and we provide you the platform for it. Because when you maximise, we maximise.
