FOSTER & FORGE FOUNDATION

MARKETING & COMMUNICATIONS PARTNER

Introduction

Foster & Forge Foundation was established in 2015 with the belief that every child has the potential to positively impact their environment & contribute meaningfully to the growth of the country. What they need is the opportunity to explore their potential to build their capabilities and role models to inspire and show them the way. This is where the teachers step in, playing a revolutionary role in not only accelerating learning but also building Active Citizens. Foster and Forge is a part of the larger whole-child movement that has been advocated for by the NEP 2020.

We run a 2-year fellowship program for India's largest teacher community–government school teachers. Enabling them to consistently reimagine their classrooms through effective pedagogy and problem-solving skills and in turn emerge as teacher leaders who empower their students to take charge of their future as active citizens.

Foster & Forge Foundation has been working with government schools in Uttar Pradesh for 8 years. We are now in the process of envisioning working closely with local governments as trusted partners. In the next 2 years, our impact could look like strategically chosen demonstration sites where we codify and mainstream practices for the government as we expand to new states like Haryana and Uttarakhand.
