Background

Foundation for Reproductive Health Services India (FRHS India) is a registered not-for-profit organization operating since 2009. FRHS India is an affiliate of MSI Reproductive Choices (MSI), a global organization providing personalized contraception and safe abortion services to women and girls. MSI's local teams of professionals are passionate about the work they do in communities across 37 countries. The high-quality services we provide, give a woman the power to choose if and when she has children so that she's free to pursue her plans and dreams for herself and her family.

FRHS India is the No. 1 non-governmental provider of Clinical Family Planning services. We provide quality family planning and safe and legal abortion services to women in need, through multiple channels that comprise of our own clinics, clinical outreach teams and public sector support to Government facilities. We are currently working in the states of Rajasthan, Bihar, Jharkhand, Uttar Pradesh, and Madhya Pradesh in Public Private Partnership with state governments. In 2022, our teams directly provided family planning choices and quality services to over 179,239 clients that delivered a Couple Year Protection (CYP) of over 2.17 million.

A large number of women in India are unable to exercise their sexual and reproductive rights due to a number of barriers – social, cultural, policy, and access to information and services. Thus, we work in partnership with stakeholders to improve the policy environment toward enabling women to exercise their reproductive rights and choices. FRHS India also implements advocacy projects to advance sexual and reproductive rights in the country.

It is a role requirement that the job holder must fully comply with, promote, and live **FRHS India's CORE VALUES.**
