Job Description
Associate Consultant / Senior Associate Consultant

About GDi

GDi is an impact-driven start-up committed to transforming the lives of individuals and communities for an equitable and inclusive world. We work in partnership with governments and impact-oriented organisations to design and execute large-scale development programs in domains like education, agriculture, environment, skill development, digital service delivery, and health. In less than 3 years since our founding, we've grown to become a 55+ member team working across 12 projects with 8 state governments and 3 central government ministries, as well as several strategy projects with large NGOs and philanthropies. To know more about GDi's work, please visit our Website and LinkedIn page.

Key responsibilities

As an associate consultant / senior associate consultant, you will work in a team of 3-5 consultants to play an active role in all aspects of outcome delivery. In this client-facing role, you will regularly engage with senior leaders across political, bureaucratic, and philanthropic arenas, enhancing your leadership acumen and broadening your professional connections. Typically, you will work on

1. **Diagnosing complex challenges** by breaking down the problem statement and analysing data sets to identify gaps and design effective solutions.
2. **Brainstorming with your team and partners** to problem-solve, plan, and decide on the deliverables and next steps.
3. **Participating in field visits** and interacting with partners/beneficiaries to gain first-hand insights and understanding of their needs.
4. **Managing stakeholders** by attending meetings, discussing progress, and aligning program objectives and next steps with them.
5. **Engaging in organisation-building activities** and leading new initiatives within the organisation.
6. **Supporting the implementation** of large-scale government initiatives impacting crores of lives

Required Competencies

There are 3 key competencies we look at - (i) Alignment with our values, (ii) Fit within our culture and (iii) Key skills including -

1. Strong logical reasoning, analytical, and problem-solving abilities
2. Strong communication and articulation skills (verbal and written)
3. Basic data analysis and technology skills

Field of past work experience or education is not a constraint.

Opportunities for the Candidate

1. Ability to contribute to transforming the lives of individuals and communities
2. Experience working in a fast-paced environment with a steep learning curve
3. High degree of ownership of individual work streams given to each member
4. Freedom to experiment, taste successes and failures, and high learning curve
5. Learning nuanced understanding about impact sector and impact consulting
6. Close mentorship and professional development by experienced leaders

Our Partners

Our collaborations extend to a diverse range of stakeholders - from grassroots organisations and NGOs to governmental agencies and global foundations. Prominent institutions like the Bill and Melinda Gates Foundation, The World Bank, Children's Investment Foundation, Niti Ayog, and the Michael and Susan Dell Foundation approach our consultancy firm when faced with India's intricate development challenges. As a team of visionaries and innovators, we harness our cross-sectoral expertise to craft innovative solutions. Through these partnerships, we strive to drive transformative change in India's development landscape.

Location

The base location for all selected candidates is New Delhi. Depending on the project, significant time will be spent at project locations (generally state capitals). Frequent travel to meet various officials within/outside Delhi/client location will be required.

Remuneration and Benefits

Highly competitive remuneration package commensurate with social impact consulting industry standards, along with fast-paced growth typical to consulting industry. Additionally, an immense opportunity to grow professionally!

For Ashoka University graduates, the CTC being offered is -

- Undergraduate (UGs): INR 9-9.5L per annum
- Advanced Scholar Programme (ASP): INR 9-9.5L per annum
- Young India Fellows (YIF): Between INR 9-14 L per annum (depending on past educational qualification and relevant work experience)

Selection Process

1. Candidates are required to fill out this form and attach their CV and responses to the prompts in addition to applying on Superset
2. Shortlisted candidates submit a concept note solution on a real-life problem (prompt for the concept note and the link to submit the concept note will be shared with shortlisted candidates separately)
