

With a startup spirit and 100,000+ curious and courageous minds, we have the expertise to go deep with the world's biggest brands—and we have fun doing it. Now, we're calling all you rule-breakers and risk-takers who see the world differently and are bold enough to reinvent it.

Transformation happens here. Come, be a part of our exciting journey!
Are you the one we are looking for?

Inviting applications for the role of **Business Analyst**

The role offers the opportunity to engage with various groups within the Firm in Operations, Finance, Risk and IT to ensure delivery of business requirements in line with various Product Operation initiatives currently underway covering Regulatory Reporting and control framework agendas. It will also include the provision of inputs into broader functional architecture efforts and business process re-engineering initiatives within the Firm.
This is a challenging and rewarding role offering the candidate the opportunity to work on a varied portfolio of change. The candidate will need to be able to understand and articulate the differences between various financial products and their related operational processes and technologies, have an appreciation of the wider regulatory landscape and define, identify and deliver strategic solutions for controls, risk management and problem resolution. The candidate will also need to be able to work with and get the best from all levels of the organisation.

Responsibilities

- Coordinate with multiple stakeholders to obtain data and execute projects / deliverables as well as raising and tracking issues.
- Support business teams in delivery of business requirements and translate data these into meaningful insights
- Help translate data and build story on power point presentations
- Help analyze problem areas and come up solutions while supporting senior stakeholders
- Formalize the results of data and systems analysis into structured documentation
- Form strong business relationships with multiple senior stakeholders

Qualifications we seek in you!

Minimum qualifications/skills

- Postgraduate preferably in business management
- Good Communication and interpersonal skills
- Proficient in MS office – Excel and PPT

Preferred qualifications

- Technical skills
- 4-6 years of prior working experience preferably as an Analyst
