Job Description: Executive (South Zone)

Job Title - Executive
Function - South Zone Operations
Location - Vijayawada/ Hyderabad (with travel required across/ between AP and Telangana)
Years of Experience - 2-3
Educational Qualifications - Bachelors/ Masters
Language - Ability to speak Telugu fluently is essential

About Indus Action

At Indus Action, we seek empathetic, driven, and action-oriented team members who align with our intention of making public welfare unlock happen as a 'Do-Tank'. We desire candidates who want to partner with the Sarkar (state) and Samaaj (communities) in service of our audacious mission of systematically making welfare access sustainable and frictionless for our vulnerable citizens and their families.

Our vision of a progressive and inclusive society is replicated internally through our equitable compensation structures, transparent organisational policies, and supportive work culture. As an aspiring Deliberately Developmental Organisation (DDO) combined with our operating values of Listen.Act.Change. We commit to nurturing active citizens and supporting enterprising individuals with a growth mindset, professionally and personally. At Indus Action, you are valued beyond your role or title. Instead of an open-door policy, we have a no-door policy, where everyone has access to and collaborates with everyone. We offer high cross-functional learning within the ecosystem as well. If you are about building for impact at scale, experimenting, and learning with joy along the way, then Indus Action is the place for you, and we have been looking for you!

Position Summary

The South Zone operations team is at an exciting stage of planning and launching new projects in Telangana and Andhra Pradesh. Indus Action is looking for a professional who can take ownership of key aspects of these projects and support the project lead in driving towards key outputs and outcomes. Engaging with primary and secondary research, building

and implementing critical aspects of the project with key stakeholders will be essential for this role.

Role and Responsibilities

The primary responsibilities would include:

Project Operations:

- Support day-to-day project(s) operations within the state(s), ensuring compliance with the terms of the project/ scope of work.
- Coordinate with cross-functional teams within IA to drive towards key project outputs and outcomes.
- Identify operational bottlenecks and support in implementing strategies to enhance efficiency and productivity.

Stakeholder engagement:

- Engage with key government functionaries around specific aspects of the project.
- Engage with citizens from economically and socially disadvantaged groups, and varied geographical areas.
- Support on-ground partnerships with local NGOs and other civil society organisations.

Monitoring and Evaluation:

- Contribute to the monitoring and evaluation plan for the project(s).
- Understand key aspects of the welfare delivery system on ground and document those learnings.
- Evaluate the implementation of policy and processes on the ground.
- Use technology for data collection and processing.

Knowledge and Technical Skills

- Strong analytical and research capabilities, both qualitative and quantitative
- Good project management skills
- Capable of working with Government functionaries
- Proficient Excel capabilities
- Comfort with technology usage and products

- Ability to read and write in Telugu would be an added advantage

Behavioural Competencies and Values

- **Citizen-Focused Mindset:** Upholding the principle of placing the vulnerable citizen at the centre of every initiative
- **Entrepreneurial Energy:** Showcasing ownership of time and resources to yield solutions
- **Dealing with Ambiguity:** Maintaining grace under pressure and showcasing a progressive approach
- **Growth Mindset:** Perceiving every experience as a learning curve and an opportunity for growth
- **Collaboration:** Cultivating productive partnerships internally and externally.

Education and Experience

Indus Action seeks to provide a unique opportunity for persons with 2-3 years of exposure to public policy, planning and development. It seeks to engage persons with passion for development and the potential to gain experience with respect to Government policies, and programmes in areas that are relevant to development and will provide high-quality professional inputs in economics, education, public health and social science.

Compensation

The compensation will be based on the Indus Action's compensation benchmarking rubric. The range of compensation will depend on the qualifications, experience and role fit.
The candidate would need to use his/her own laptop, and the organisation will bear the annual maintenance cost of up to INR 12000 per year, as per actuals.

Location

The position can be based out of **Vijayawada / Hyderabad** with travel required between and within the states (Andhra Pradesh and Telangana) depending on project needs.
