Job Description: Senior Manager (Karnataka)

Job Title - Senior Manager
Function - South Zone Operations
Location - Karnataka (Bangalore preferred)
Years of Experience - 3-6
Educational Qualifications - Bachelors/ Masters
Language - Ability to read and speak Kannada fluently is essential

About Indus Action

At Indus Action, we seek empathetic, driven, and action-oriented team members who align with our intention of making public welfare unlock happen as a 'Do-Tank'. We desire candidates who want to partner with the Sarkar (state) and Samaaj (communities) in service of our audacious mission of systematically making welfare access sustainable and frictionless for our vulnerable citizens and their families.

Our vision of a progressive and inclusive society is replicated internally through our equitable compensation structures, transparent organisational policies, and supportive work culture. As an aspiring Deliberately Developmental Organisation (DDO) combined with our operating values of Listen.Act.Change. - we commit to nurturing active citizens and supporting enterprising individuals with a growth mindset, professionally and personally. At Indus Action, you are valued beyond your role or title. Instead of an open-door policy, we have a no-door policy, where everyone has access to and collaborates with everyone. We offer high cross-functional learning within the ecosystem as well. If you are about building for impact at scale, experimenting, and learning with joy along the way, then Indus Action is the place for you, and we have been looking for you!

Position Summary

The South Zone operations team is at an exciting stage of planning and launching new projects in Karnataka. Indus Action is looking for a professional who can take ownership of critical aspects of these projects and support the project lead in driving towards crucial outputs and outcomes. Engaging with primary and secondary research, as well as building and implementing critical aspects of the project with key stakeholders, will be essential for

this role. The role will also involve supporting operations in three other states in the South zone as per project requirements.

Role and Responsibilities

The primary responsibilities would include:

Project Operations:

- Oversee day-to-day project(s) operations within the state(s), ensuring compliance with the terms of the project/ scope of work.
- Coordinate with cross-functional teams within IA to drive towards key project outputs and outcomes.
- Identify operational bottlenecks and support in implementing strategies to enhance efficiency and productivity.

Stakeholder engagement:

- Engage with government functionaries at various levels around specific aspects of the project.
- Engage with citizens from economically and socially disadvantaged groups, and varied geographical areas.
- Drive on ground partnerships with local NGOs and other civil society organisations.
- Analysing project data to prepare comprehensive reports for funders.

Monitoring and Evaluation:

- Contribute to the monitoring and evaluation plan for the project(s).
- Understand key aspects of the welfare delivery system on ground and document those learnings.
- Evaluate the implementation of policy and processes on the ground.
- Use technology for data collection and processing.
- Standardise report formats and set up dashboards to share insights and analysis.

Knowledge and Technical Skills

- Strong project management skills
- Capable of working with Government functionaries
- Strong analytical and research capabilities, both qualitative and quantitative
- Proficient in drafting documentation for stakeholders

- Excellent communication and interpersonal skills
- Strong Excel capabilities
- Comfort with technology usage and products
- Ability to read and write in Kannada would be an added advantage

Behavioural Competencies and Values

- **Citizen-Focused Mindset:** Upholding the principle of placing the vulnerable citizen at the centre of every initiative
- **Entrepreneurial Energy:** Showcasing ownership of time and resources to yield solutions
- **Dealing with Ambiguity:** Maintaining grace under pressure and showcasing a progressive approach
- **Growth Mindset:** Perceiving every experience as a learning curve and an opportunity for growth
- **Collaboration:** Cultivating productive partnerships internally and externally.

Education and Experience

Indus Action seeks to provide a unique opportunity for persons with 3-6 years of exposure to public policy, planning and development. It seeks to engage persons with a passion for development and the potential to gain experience with government policies and programmes in areas that are relevant to development. It will also provide high-quality professional inputs in economics, education, public health, and social science.

Compensation

The compensation will be based on the Indus Action's compensation benchmarking rubric. The compensation range will depend on the qualifications, experience and role fit.
The candidate would need to use his/her own laptop, and the organisation will bear the annual maintenance cost of up to INR 12000 per year, as per actuals.

Location

The position can be based out of **Bangalore (or any location in Karnataka),** and travel might be required within or outside the state, depending on project needs.
