ABOUT INDUS INSIGHTS

Quick Overview:

- Consulting firm adding value to clients using Data Science and Advanced Analytics
- Focus and deep expertise in the BFSI sector. Driving cutting-edge innovation with clients that include retail banks, fintech companies, credit card issuers, payment gateways, auto insurance & insurtech companies, etc
- Truly global outreach – clients are in the US (~70% of our revenue), UK, Australia, South-east Asia, UAE, and other countries. Our team members interact directly with global clientele
- Drive value across functional areas: Credit Risk, Pricing, Customer Acquisition & Marketing, Customer Management & Loyalty, Fraud, Collections, etc
- Internal policy of rotating people across clients & functional areas every 18-24 months. Every individual gets exposed to a variety of problem statements, products, geographies, and working styles, speeding up career growth & preventing stagnation
- Team of ~150 analytics & data science professionals. Extremely high talent density – more than 90% of incoming class every year consists of graduates of the top 10-15 campuses of India – top-tier IITs, BITS, LSR, SRCC, Ashoka, ISB
- In business for more than ten years; Growing at revenue CAGR of ~50% for last six years; Profitable with healthy EBITDA margins all these years
- Closed Rs. 50 Cr of growth stage equity funding in summer ’22 from a US-based PE investor to provide additional dry powder for the future
- Stellar employee satisfaction ratings of 4.4 or above on all key employee metrics (on a scale of 1-5, with 5 being the highest)
- Repeat mentions in key business publications (like the Economic Times) regarding news on top-tier hiring

More Details:

Indus Insights is a cutting-edge Data Science and Advanced Analytics consulting firm. The firm focuses on the banking, fintech and insurtech sectors, where it adds value in marketing, pricing, risk, valuations, collections, and loyalty analytics.

Indus Insights has been in business for more than a decade and has clients across four continents. Clients include one of the top 3 consumer lenders in the US, a top 25 bank in the US, a "Big Four" bank in Australia, two of the top 30 global banks, one of UK's top 15 auto insurers, one of America's largest fuel cards companies, a leading publicly-listed Australian fintech company, most of the large banks in Singapore, one of the top 5 US airlines, and a variety of other companies in the BFSI sector.

Indus Insights is led by seasoned veterans with decades of experience in blue chip companies such as Capital One, Bain, HSBC, Citibank, Mercer, etc. The firm has an all-star team of about 150 people, with nearly everyone being a graduate of one of the top IITs, ISB, BITS, and similarly competitive programs.

Indus Insights is headquartered in Gurgaon, with satellite offices in Bangalore & Philadelphia. The firm has been growing rapidly, with a six-year revenue CAGR of nearly 50%, while maintaining healthy profitability throughout. Indus Insights raised Rs. 50 Cr of growth capital funding in summer '22, as it enters the next phase of its growth.

Why Indus:

Employees of Indus describe three key features that make them most excited about Indus:

> **Diversity of work**: The firm rotates employees across clients every 18-24 months, ensuring their continuous learning by giving them exposure to different countries, client organizations, products, and functional areas
>
> **People & Culture**: Employees love the experience of working with team members who are all exceptionally bright and fun at the same time; Work culture is collegial, fast-moving, and non-bureaucratic
>
> **Professional Development**: The firm makes a priority of investing in the development of its people. This happens through formal training programs on hard skills (such as R, Python, Machine learning, etc.), external faculty led initiatives on soft skills such as communication, and on-the-job training in areas such as team leadership, stakeholder management, effective prioritization, etc.

Not surprisingly, employees give the company stellar scores in internal satisfaction surveys, with an average score of 4.4 or higher (on a scale of 1-5, with 5 being the best) on parameters such as ‘likelihood to recommend Indus’, ‘trust in leadership’, ‘excitement about being at Indus’, etc.
