Job Summary

We are seeking experienced and knowledgeable Subject Matter Experts (SMEs) in the field of **English** to join our team. As an SME, you will play a critical role in building data sets for large language model training (similar to ChatGPT, Bard, Bing, and HuggingChat, for example). Your role will include writing/authoring responses to a wide range of prompts in your field of expertise, which will enable us to enhance the capabilities and knowledge base of our language model.

Responsibilities

- **Create/generate high-quality responses to given prompts** across a wide variety of topics within your field of knowledge, from simple to more complex levels of difficulty.
- **Exhibit exceptional expertise in creative English writing** within your field of knowledge, while making sure to utilize:
  - **Reliable** and **relevant** sources to gather information and facts for your responses.
  - **Appropriate** and **consistent** language, tone, and style for your responses.
  - **Creative** and **engaging** techniques to make your responses interesting.
- **Conduct in-depth research** to gather precise and relevant information to provide an accurate response.
- **Ensure the accuracy, coherence, clarity, and quality** of your response.
- **Provide constructive feedback** and **valuable insight** regarding techniques and strategies for writing responses.
- **Contribute to the continuous improvement** of our language model by identifying potential areas of enhancement and suggesting new prompt ideas.
- **Collaborate with other SMEs** to maintain consistency and quality across the prompt generation process.

Requirements

- Bachelor’s to master’s (or higher) degree in English from Top Tier colleges. .
- US Native level English proficiency , well versed with writing and reading in their language, with excellent written and verbal communication skills.
- Working experience in content writing, blogging, problem-solution writing, and editing of text.
