Analyst

About the Company

Jetapult is a pioneering startup that invests in and operates a diverse house of game studios, specifically focusing on revenue-generating casual mobile game studios in emerging markets.

Collaborating with industry veterans from Zynga to Bethesda, Jetapult employs scientific methodologies, cutting-edge technology, and the advantages of scale to enhance the capabilities of these game studios.

The venture is spearheaded by Sharan Tulsiani, former head of Google Play Games IN & ANZ, and Yash Baid, former Principal at 3one4 Capital. Jetapult is backed by prominent investors such as Accel, Fireside, and Jetsynthesys.

Job description

As a part of the Founders Office at Jetapult, you'll get the unique opportunity to shape the company and its culture. You'll get guidance and plenty of support from our small, energetic team. We empower everyone to grow and perform their best. Here are some things you'd cherish if you joined us
1. Autonomy to perform your role while shaping the company's direction. 2. Freedom and resources to unleash the entrepreneur in you within Jetapult. 3. Deep dive into the gaming industry.

No. of positions: 2

What will you be doing?

- **Jack of Traits(Generalist):** Take ownership and execute Research, Analysis, Documentation and Presentation goals.
- **Rhythm of Execution:** Define and execute it, including leadership meetings, BU reviews, next-step execution, etc.
- **Project Management:** Oversee and coordinate projects, OKRs, and KPIs to ensure efficient execution and alignment across diverse teams.
- **Operational Excellence:** Contribute to establishing and maintaining processes that enhance the overall efficiency of the product function. ● **Research and Networking:** Helping source exciting investment opportunities through your research and/or via networking.

- Helping Jetapult in prioritizing and building its **investment thesis.**

Requirements

What skills do you need?

1. Be extremely data and fact-driven!
2. Be a hacker! Not necessarily who can hack code, but hack your way through any problem using first principles.
3. You should possess relevant internship **experience in research, analytics, consulting, problem-solving**, or a similar role.
4. Super hands while solving problems and figuring out how **tech, Excel, gen AI can solve problems faster**.
5. Display high levels of **discretion and integrity** when dealing with sensitive information.
6. Familiarity with **project management processes and methodologies** will be an asset.
7. Demonstrate a track record of successfully **juggling multiple tasks** and prioritising effectively.
8. **Be flexible** in adapting to evolving priorities and the organisation's dynamic needs.
9. **Excellent written and verbal communication** and interpersonal skills are essential for collaborating effectively with cross-functional teams.

Bonus

- **Startup, Tech, or Gaming Experience**: Previous experience in startups or tech or gaming companies will be considered a plus.
- **Customer-facing roles:** It would be an added advantage if you have experience working closely with C-suite executives.
- **Agile Knowledge:** Familiarity with agile development principles and frameworks will be beneficial.

If you are an ambitious and driven individual seeking an exciting opportunity to contribute to a high-growth organisation and work closely with visionary leaders, we encourage you to apply! Join our team and participate in our journey towards excellence and innovation in the industry.

What happens after you apply?

1. Within 15 days of your application - which is wholesome, original & expressive - our People Team will reach out to you for a quick chat.
2. Within 4-6 days of chatting with the People Team, you will get a call from someone from your future team to discuss the job role.
3. If all goes well, you can show off your skills through a small task or assignment.
4. After a quick interaction with the People Team, If our vibes match, a tête-à-tête with the founding team follows.
5. Finally, we high-five and jot down the next steps for you to join us. :) 6. At any step, if things don't work out, we proactively send an email. You are welcome to ask for feedback and reapply in the future.
