Job Description for Business Analyst

Location: Ahmedabad | Bangalore | Delhi

About MXV Consulting

MXV Consulting is a performance and impact focused strategy and management consulting firm established in 2007. Our experience and expertise lie in India and ourfocus is on building a sustainable competitive advantage for our clients. We have the experience of working across multiple industries and functional areas - enabling us tobring in fresh ideas and a strategic perspective to every engagement. Our insights are backed by a rigorous process of analysis and design thinking. This ensures that our recommendations are well-researched, practical and tailored to an organization's requirements. In many instances, we also take on the role of implementation managers.

In 2020, MXV was listed among the "10 Most Promising Management and Strategy Consultants". Our work has featured in several leading business publications - including The Economic Times, The Hindu, Outlook Business and Indian Management, amongst others.

In 2021, MXV Consulting has been certified as a great workplace by Great Place To Work - Institute.

Our Clients and Work

Our clientele includes Fortune 500 companies and leaders across various industries. We believe in long term relationships with our clients and have worked on multiple engagements with most of them. Our clients are global in nature – including India, theUS, Middle East, Europe and Asia. The team at MXV has worked with more than 110leading companies across industries on more than 250 assignments till date.

Equal opportunity for all

We believe in providing equal opportunities to all and are committed to diversity andinclusion in the workplace. We prohibit discrimination and harassment of any kind based on gender, race, color, age, religion, sexual orientation, political opinion, disability, HIV status, or any other protected characteristic as outlined by federal, state, or local laws.
This policy applies to all employment practices within our organization. We make hiring decisions based solely on qualifications, merit, and business needs. Hence, we have requested the placement office to send in your applications as blind résumés, without your personal details mentioned.

Key Responsibilities

As a Business Analyst at MXV, you are an integral part and assume a great deal of responsibility. Your primary role is to comprehend client issues, devise practical solutions, and provide impactful recommendations. Now, how to do this? Let's explore below:

- You'll lead data analysis through primary and secondary research including interviewing people from relevant industry — work that will become the basis of strategic recommendations.
- MXV's problem statement are in the domain of Market entry and growth, Business operations & models, Sales growth, Organizational Strategies, Sustainability and more.
- The role involves framework creation, testing hypothesis, fact-finding and collaboration with subject matter experts.
- You'll learn about different industries and domains through each project, and you'll also participate in various knowledge creation programs and internal projects.

Do you fit the bill?

- You are driven by intellectual curiosity and have an insatiable thirst for knowledge - Unstructured problems and environments have always excited you.
- You have a high sense of ownership towards your work and ability to deal with ambiguous and dynamic environment.
- You thrive on discussions and debates, and love to speak your mind - You are passionate about delivering exceptional results.
- You are an analytical thinker and problem solver. Excellence is part of your DNA.
