About The Organization:

Masters' Union (www.mastersunion.org) is a new-age business school offering industry immersive business education where the classes are led by top industry leaders and practitioners. It is a first-of-its-kind institute where distinguished leaders from different walks of life have re-imagined business education in order to create effective business professionals
for the ever-changing economy. Our leadership consists of alumni from IITs, IIMs, and Ivy League Schools like Stanford and Upenn.
The institute is strategically located in the very heart of Gurugram's business district, flanked by several Fortune 500 companies, in order to provide the ultimate industry immersive and hands-on learning experience from day one. The most ground-breaking feature of its Programme is that the courses are taught by CXOs, MDs, Eminent Public Leaders, and even Members of Parliament, apart from distinguished global faculty from top B-schools who regularly consult with Fortune 500 companies.
In its 3 years of run, Our flagship Post Graduate Program in Technology and Business management has already surpassed the placement records of IIM Ahmedabad and ISB with top-notch recruiters (including Amazon, CitiBank, Microsoft, Unacademy, Razorpay, BCG, Bain) hiring our graduates.
Post our stellar success in the post-graduate program, we are now launching the undergraduate
program on similar lines where leading executives from the industry will come and teach our students and teach them the new age in-demand skills in technology and business.

Cohort Manager (Student Experience)

Role and Responsibilities :

1. Manage student life activities within the campus with the aim to provide students with the best campus experience, this includes, but is not limited to- events, Clubs, tech Boot campus volunteering activities, and counseling services.
2. Student Support and Guidance: Provide assistance to students in navigating the EdTech platform, troubleshooting technical issues, and addressing queries related to the learning materials or resources.
3. Onboarding and Orientation: Facilitate the onboarding process for new students, guiding them through the platform, its features, and ensuring they understand how to access and use the educational tools effectively.
4. Learning Management System (LMS) Maintenance: Oversee the functionality and usability of the Learning Management System, ensuring it operates smoothly and efficiently. This involves managing user accounts, course enrollment, and content updates.
5. Data Analysis and Reporting: Analyze student data and performance metrics within the EdTech platform. This might include tracking engagement, progress, and assessment results,then generating reports to evaluate student performance.
6. Communication and Engagement: Maintain consistent and clear communication with students, providing updates on courses, events, and any changes or improvements within the platform. Encourage and facilitate student engagement with the platform and its resources.

7. Training and Support Resources: Develop training materials, guides, and resources to assist students in effectively using the EdTech platform. This may involve creating tutorials,FAQs, or video guides.
8. Collaboration with Educators or Instructors: Work closely with educators or instructors to ensure the alignment of the EdTech platform with the curriculum. Collaborate to enhance the learning experience and address any issues or improvements needed in the platform.
9. Community Building: Foster a sense of community among students using the EdTech platform. This might involve organizing online discussions, forums, or activities that encourage interaction and collaboration among students.
10. Continuous Improvement: Collect feedback from students about their experience with the platform, gather suggestions for improvements, and work with the development team to enhance the platform based on user needs.
11. Administration and Coordination: Handle administrative tasks such enrollment,tracking student progress, and ensuring compliance with data privacy regulations or educational standards.

Required Skills:
