ONEEIGHTY AAMOKSH

Job Title: Android Developer

Location: Remote

Salary: INR 6 LPA (20% variable pay)

Job Type: Full-Time

About Us: One Eighty Aamoksh Technologies is a leading web and mobile development agency specializing in cutting-edge technologies. We're currently looking for early-careers to join our dynamic team.

Responsibilities:

- Design and develop advanced applications for the Android platform using Java and Kotlin.
- Collaborate with cross-functional teams to define, design, and implement new features.
- Utilize your expertise in RxJava to enhance application functionality.
- Work with external data sources and APIs.
- Conduct unit tests to ensure code robustness and reliability.
- Debug and fix issues to optimize application performance.
- Continuously explore and implement new technologies to enhance development efficiency.

Requirements:

- Proven experience in Android app development, proficient in both Java and Kotlin.
- Strong working knowledge of the Android SDK.
- Experience working with remote data via REST and JSON.
- Familiarity with third-party libraries and APIs.
- Solid understanding of the full mobile development life cycle.
- Experience with RxJava is highly desirable.
- Strong problem-solving and debugging skills.
- Excellent communication and collaboration skills.

Commitment: The selected candidate must commit to a minimum of one year with our organization.

How to Apply: Submit candidate resumes to with the subject line "Application Android Developer Position." Shortlisted candidates will undergo a rigorous selection process, including a technical and aptitude test. Successful candidates will proceed to a technical interview followed by a final round with the hiring manager.

Embark on an exciting journey in Android development with us!
