WHAT
SETS US APART

THOUGHT LEADERSHIP

No one knows this space like we do! We are highly coveted by investors, policymakers, corporates and global OEMs to educate and explore EV investment opportunities.

CURATED INVESTOR BASE

We are pioneers in bringing global investors to India market and first-time strategic investors to our clients. We are building India's best global investor ecosystem in the electric mobility and sustainability sectors.

ECOSYSTEM APPROACH

We are focused on the larger goal of greater EV adoption and hence, go out of our way to help EV businesses benefit from each other. We see each successful deal as contributing to this larger goal.

A PIONEERING APPROACH TO
CATALYSING CAPITAL FLOWS

Bringing Global Mobility & Sustainability **sector-focused investors into India for the first time**

At a time when founders were fund-raising from sector-agnostic HNIs and angel networks, we took the lead in approaching and converting reputed global sector-focused investors

Bringing **first-time Strategic Investors** to our clients

We believe the global transition to clean energy and sustainability requires not just financial but strategic support, to grow and benefit from existing businesses and capital sources

Thinking out-of-the-box, breaking traditional IB constructs

Positioning a business in new mobility, clean energy or sustainability requires fresh thinking because these are new-age business in often first-time industry sectors.

We bring a fresh perspective to each fund-raise process, backed by our deep domain expertise.

Do read our Case Study slides to learn more about our fund-raising processes run within tight timelines.
