We are seeking a highly skilled and motivated Full Stack Developer to join our team of world-class engineers. The ideal candidate will have a deep understanding of computer science fundamentals and a passion for building elegant and efficient software. They will be a master of multiple programming languages and technologies, including Dart, Flutter, and native mobile app development.

Key Responsibilities:

- Design and develop innovative Flutter applications for mobile platforms.
- Collaborate with designers to create visually stunning and user-friendly enchanted interfaces.
- Optimise the performance of mobile and web applications.
- Implement UI animations and transitions.
- Develop native components using SwiftUI or Kotlin.
- Integrate rich media, such as images, videos, or audio, into applications.
- Write clean, maintainable, and well-documented code.
- Participate in code reviews and provide constructive feedback to peers.

Qualifications:

- Solid practical experience in full stack development, with a strong focus on Dart, Flutter, and native mobile app development.
- Exceptional proficiency in designing and developing user interfaces, building scalable backend services, and deploying and managing cloud-based applications (GCP + AWS).
- Strong knowledge of Dart programming language and Flutter framework.
- Experience in developing native components using SwiftUI or Kotlin.
- Proven ability to optimise the performance of mobile and web applications.
- Experience in implementing UI animations and transitions.
- Strong understanding of computer science fundamentals, data structures, and algorithms.
- Excellent communication and teamwork skills, with the ability to work effectively in a fast-paced, remote-first environment.
- A passion for learning and staying up-to-date with the latest advancements in technology, specifically utilising AI to integrate with apps.
- Experience in integrating rich media, such as images, videos, or audio, into applications is a plus.
