Growth Product Manager | Perpetuum

Are you ready to tackle the 0-1 challenge and partner with us to build something extraordinary from the ground up? We are looking for a highly motivated and strategic Growth Product Manager to lead the growth initiatives for Spilll app. This role is crucial in helping us establish a strong user base and drive engagement on our platform. You will be responsible for creating and executing strategies to "cold start" and scale Spilll.

Key Responsibilities:

- Develop strategies to attract and retain the target audience, drawing from successful tactics employed by similar apps that attained breakthrough.
- Design and execute features and campaigns that encourage viral growth and network effects.
- Conduct thorough market research and user feedback sessions to ensure product-market fit. Utilize insights to continuously refine product features based on data-driven insights.
- Focus on top, middle, and bottom of the funnel metrics. Develop strategies to optimize each stage, from user acquisition to activation and retention. Implement and monitor KPIs such as user sign-ups, active users, and retention rates.
- Create, run, and manage experiments to validate growth hypotheses. Set up an experimentation framework to test new features, onboarding flows, and marketing campaigns. Use A/B testing to measure the impact of changes and iterate quickly.
- Implement gamified interventions and leverage psychological triggers to enhance user engagement and retention.
- Develop strategies to increase user engagement and retention.
- Foster a sense of community among users. Encourage user-generated content and interactions that promote a vibrant, supportive, and engaged user base.
- Utilize analytics tools to track and measure the performance of growth initiatives. Make data-driven decisions to refine strategies and achieve growth targets. Monitor metrics such as daily active users (DAU), monthly active users (MAU), and user churn rate.
- Work closely with product, engineering, design, and marketing teams to align growth initiatives with overall product strategy and goal.

Qualifications:

- 1-2 years of experience in product management, growth, or a related role, preferably in a consumer tech company.
- Demonstrated ability to develop and execute complex growth strategies. Strong analytical skills with the ability to use data to inform decisions and measure success. Experience with analytics tools and A/B testing.
- Deep understanding of user needs and behaviours. Excellent communication and teamwork skills. Ability to build and nurture relationships with users and team members, fostering a supportive and inclusive environment.
- Proficient in setting up and managing experiments. Experience with hypothesis testing, A/B testing, and iterative experimentation processes. Strong problem-solving skills with the ability to analyse complex issues, identify patterns, and develop effective solutions.
- Experience with conducting user research and translating insights into actionable product improvements.
