Project Manager, Report Yak
Panjim, Goa

Join us to do the best work of your life.

Prototyze is a venture studio based in Goa.

In our 22-year history, we've created many successful businesses that include Synapse which is focussed on communication, ScreenRoot that designs screen-based interfaces, Visual JuJu which helps businesses communicate in multimedia, Report Yak that specializes in creating reports, and Deck Sherpa which is a global presentation design studio.

All these firms work with industry-leading clients and brands and are growing. A playful view of our past years is here.

Established to address corporate reporting needs the world over, **Report Yak** is a specialized wing of the venture studio Prototyze. With a diverse team of passionate individuals, we have developed expertise in curating annual, sustainability, integrated, ESG, CSR, and impact reports – in both print and digital formats. Our offerings also extend to advisory and consulting services on various reporting standards and frameworks including the Sustainability Standards, Integrated Reporting <IR> framework, and the BRSR.

When it comes to corporate reports, we leave no stone unturned in surpassing expectations. This is probably why our reports are winning LACP awards and setting new industry standards.

Job Description:

Report Yak is looking for talented Project Manager who will develop and nurture key client accounts, and lead project delivery. The ideal candidate should be confident of handling briefs and projects and excited about our core service – Corporate Reporting.

Roles & responsibilities:

- Attend client meetings, briefing calls and establish an understanding of client's business and their requirements
- Ensure the brief is accurately relayed to internal teams and creating a project plan
- Participate in developing strategy, concept presentation and client submissions, as well as present to clients
- Collaborate with internal teams of writers, designers and production managers
- Motivate and engage colleagues at all levels across the project lifecycle, while maintaining constant connect with clients and a finger on project timelines
- Manage documentation, payments and other commercial aspects
- Stay on top of evolving trends in corporate reporting
- Grow client connect to establish long-term relationships
- Participate in business development initiatives

Skills & competencies:

- Ability to work in a fast-paced deadline-oriented environment on multiple complex assignments
- Outstanding communication, interpersonal and time-management skills

- Persuasive presentation skills are a must
- Proficient in using Microsoft Office
