AN OVERVIEW

SAMPARK

A Foundation by Anupama & Vineet Nayar

"सही क्रम और सही ढंग से पढ़ना और पढ़ाना आसान है"

About Sampark Foundation

Sampark Foundation started with a belief that 'frugal innovation' and its effective implementation in partnership with the government can drive large-scale improvement in learning outcomes. This thought prompted the founders to dedicate their lives to the cause of primary education in the country and harnessed principles of human-centred design thinking to start designing solutions that had the potential of improving learning outcomes at scale. Using an iterative process of framing the question, gathering inspiration, generating ideas and making them tangible, testing to learn, and scaling up, the foundation has been able to discover ideas that work, consistently and at scale.

Sampark Foundation was set up in 2005 by **Anupama Nayar and Vineet Nayar**, former CEO of HCL Technologies and author of Harvard Business Press bestseller "Employees First: Customer Second".

Mission
With innovation-led large-scale social change as the central idea, our goal is to significantly improve the quality of education for 20 million children by 2025 across 200,000 Government schools.

Vision
To create a world where every child receives optimal primary education through frugal innovation in the critical domain of teaching practices, tools, and methodologies, thus fostering their holistic development.

National Reach of Sampark Program

8	1 Lakh+	6,72,000	1.5 Cr	3,16,000	11,900
States in India	Schools Covered	Teachers Trained	Children Impacted	TLM/Resources Distributed	Schools Equipped with Sampark TVs

Resources Developed by Sampark

to transform the classroom transaction, aligned with state curriculum and subject-wise & class-wise SCERT, lessons mapped with state textbooks.

Math FLN Kit

Audio Box

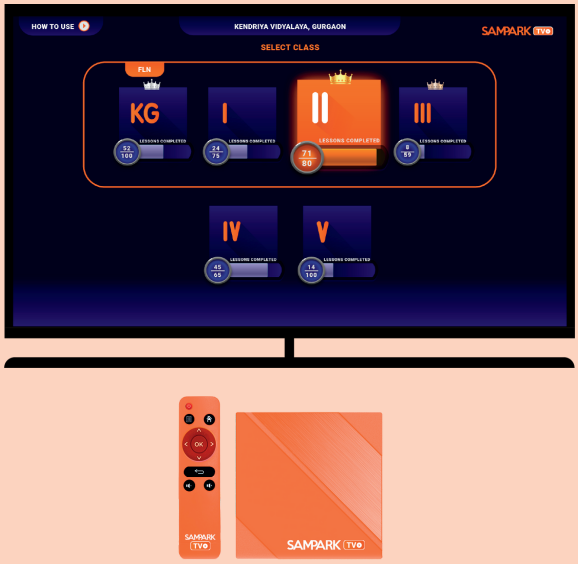

English FLN Kit

- Sampark TV Device
- Sampark Smart Shala Application
- Math & English Kit with Audio Box
- Lesson Plans - 500 Nos
- Lesson Videos - 1100 Nos
- Activities using TLMs - 450 Nos
- Worksheets subject-wise and class-wise -2000 Nos

- Songs & experiment videos for science subjects for grades 6-8
- Resource Book for Teachers

Sampark TV Device

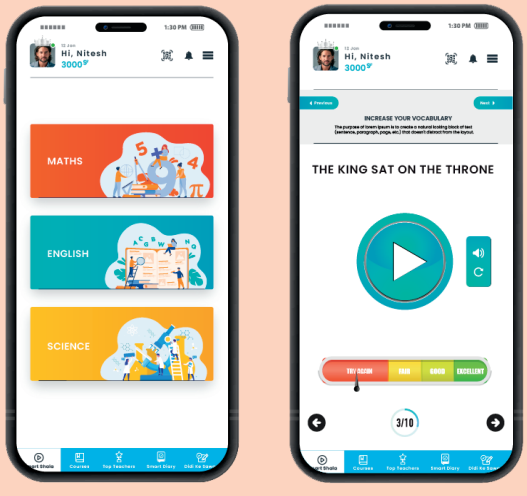

Innovation For Classroom Transformation for Grades I-V

- Works without the internet, the internet is needed only to sync the data
- Plug & Play Device, easy to handle and navigate
- Equipped with class-wise, and subject-wise resources like Lesson Plans, Videos, Worksheets, Assessments, etc. aligned with State Syllabus
- Child-centric approach to inspiring children to participate and learn
- So far Total of 11,900 Schools have been equipped with STV Devices
- Facilitates complete learning cycle as all learning resources are available in one place

Sampark Smart Shala™ Smartphone Application

Sampark Smart Shala is a mobile app, that is customized for teachers to teach children effectively. Loaded with animated Videos, Lesson Plans, Worksheets, Assessments on the platform of "KBC", Games, and access to e-Learning/ certification programs for teachers to enhance their capacity. It interacts with the users to give them a personalized experience of learning. There are over 350,000 teachers on its platform today.

The Strategy of Sampark

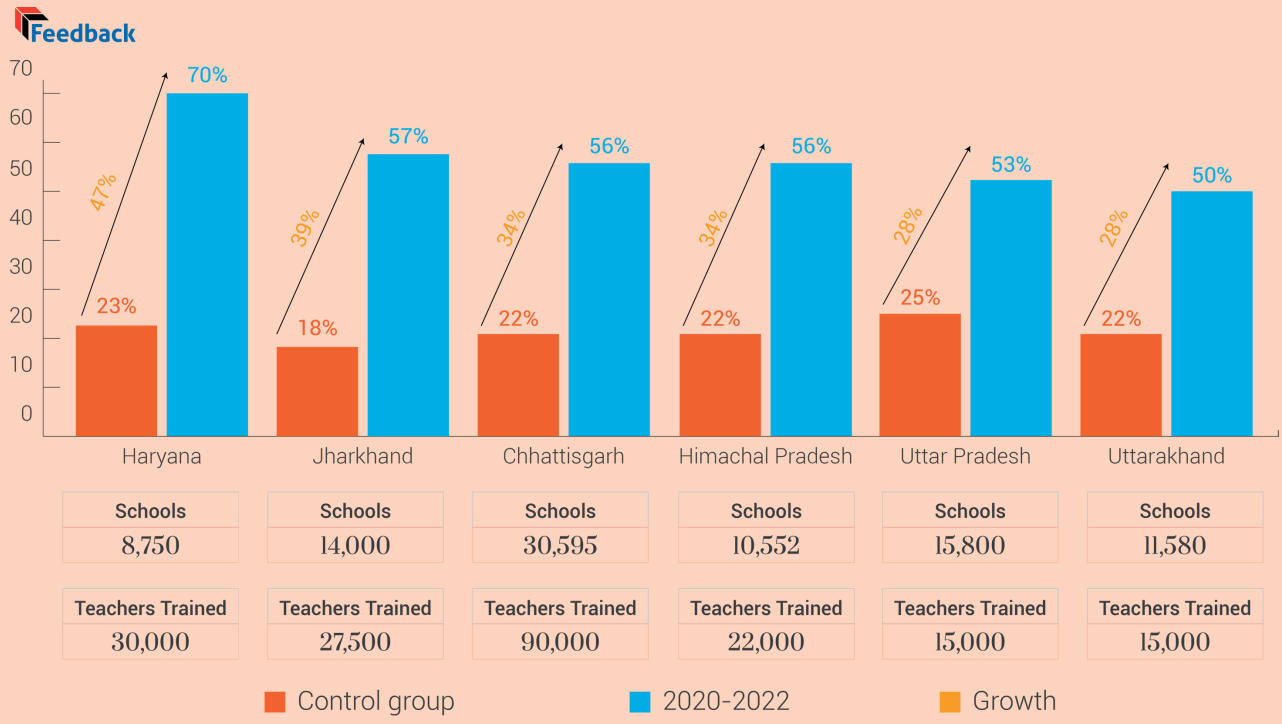

- Partner with State Government / District Administration and Monitor the program dashboard at the National/ State/District/ Block level.
- Provide Innovative Kits and Resources to help with Learning and Teaching (Sampark TV, Sampark Didi Audio Box, Lesson Plans, Videos, TLMs, Sampark Smart Shala Application)
- Train Teachers/ Master Trainers on the pedagogy and resource utilization aligning with State SCERT/ NIPUN Bharat goals.
- Train Block/Cluster level educational functionaries in the monitoring of utilization of Sampark's resources in the classroom and in supporting schools.
- State and District-Level Advocacy
- Monitoring - through technology and with the support of the officials

Sampark Team Composition in a State

- State Head
- State Operation Manager / Zonal Manager
- One District Coordinator in each district (Sparks)
- i-sparks in blocks (Interns)

Impact on Learning Outcomes

Goal: To improve the learning outcome by at least 30% across 2 lakh schools touching the lives of 2 Crore children by 2025.

SMART Schools SMART Blocks Program

Special innovative program with intense implementation in every school in selected Blocks, making classroom learning joyful with activities, developing the capabilities of teachers and making teaching systematic & easy, thus making Government SMART schools better than private by improving the learning outcomes.

Harvard Business School Case Study on Sampark Foundation Program

The eminent Professor from Harvard Business School Ms. Linda A Hill along with her Research Associate, Ms. Emily Tedards chose Sampark Foundation Smart Shala Program as Case Study to understand and explore "How A frugal Innovation along with relentless execution in partnership with the government, can drive a large scale". The study covered the program journey from 2014 – 2019 and was submitted on 16th July 2020. Funding for the development of this case was provided by Harvard Business School and not by the organization. the Case Study has been integrated into the curriculum of HBS cases. Students from across the world are exposed to the HBS cases.

"I urge the community-oriented bodies like Sampark Foundation to adopt the eight aspirational districts of Uttar Pradesh."
Yogi Adityanath
Chief Minister,
Uttar Pradesh

"Sampark Smart Shala has been launched by the Haryana government with the objective of providing home-based education to primary school children during lockdown."
Shri Manohar Lal Khattar
Chief Minister, Haryana

"Sampark TV initiative holds much importance for the sons and daughters living in remote villages and areas of the state."
Shri Pushkar Singh Dhami
Chief Minister,
Uttarakhand
