Sampark Foundation: A Voyage of Impact and Magnitude

The Daunting Challenge:
Amidst the lush landscapes of India, lies a parched terrain of under-nurtured intellects. Our government's primary education sector faces a storm of challenges, leaving over 1 Crore children in a whirlpool of inadequate learning outcomes. The echo of this crisis resounds as even fifth graders struggle to perform basic arithmetic or form a simple sentence in their mother tongue. Despite a significant surge in educational investments, the dawn of enlightenment remains eclipsed.

The Beacon of Frugal Innovation:
Anupama Nayar and Vineet Nayar (Former-Vice Chairman and CEO of HCL Technologies and revered author of 'Employees First Customer Second') sowed the seeds of Sampark Foundation with a faith that “frugal innovation” coupled with tireless execution and government alliance can kindle the lamp of knowledge across many a darkened classroom. This conviction propelled them to relinquish their corporate accolades in 2013, embarking on a quest to rejuvenate the realm of learning.

The Blossom of Sampark Smart Shala™:
Our initiative, Sampark Smart Shala™, is an epitome of Design Thinking melded with classroom innovation. It incarnates as a friendly voice mascot “Sampark Didi”, who along with a melody of music and rhythm, makes learning an enthralling experience. Our cost-effective yet impactful methods, range from interactive learning materials to technology backboned Sampark TV, designed to bridge the chasm between ignorance and knowledge, at less than $1 per child per annum.

The Ripple Effect:
Our endeavors have sown seeds of change across 1 Lakh+ rural schools, touching the lives of 1 Crore+ children in 8 states. Through patience, perseverance, and an undying passion, we have embarked on a learning odyssey, because monumental challenges demand monumental patience

and efforts. Our training programs now empower 6 Lakh+ teachers annually, nurturing them to become the harbingers of change, reflecting in the promising outcomes assessed by independent evaluations.
