Project Manager, Synapse
Panjim, Goa

Join us to do the best work of your life.

Prototyze is a venture studio based in Goa.
In our 22-year history, we've created many successful businesses that include Synapse which is focussed on communication, ScreenRoot that designs screen-based interfaces, Visual JuJu which helps businesses communicate in multimedia, Report Yak that specializes in creating reports, and Deck Sherpa which is a global presentation design studio.
All these firms work with industry-leading clients and brands and are growing. A playful view of our past years is here.

Synapse is a communication design agency that focuses on creative strategy and execution to help clients achieve their goals. You will get to interact with clients in industries including banking, insurance, healthcare, education, and technology among others. We work to solve a myriad of objectives like- "We're launching a new credit card.. what should we call it? What should the welcome kit look like? Can we make something unusual as collateral in the branch? How can we get more leads, recruit more talent, create brand awareness and increasing conversions etc." This is what we do daily. And we do this across channels—Traditional, Social Media, Emailers, Web, Presentations, Video and Brochures.

The Role:
A Project Manager at Synapse is the custodian of the client account. Apart from being a communication specialist, who understands the nuances of creating compelling communication and therefore is able to brief and drive communication work of exemplary quality and logic, he/she needs to be able to understand the pain areas for clients, look at the big picture and bring a clear vision to the proposed solution.

Roles & Responsibilities:

- Take ownership of client account
- Develop and maintain multiple project plans, including documentation of project scope, objectives, deliverables, key milestones, timelines, schedules, internal and external resources, project dashboards; providing regular status reports and progress updates to agency team and client stakeholders
- Be the trusted partner for the client and help them resolve their marketing and communication problems through engaged collaboration
- Co-ordinate with cross functional internal teams and ensure effective participation across all facets of project - conception and initiation, planning, execution, performance/monitoring, and project close
- Be proficient in time and personnel management
- Be mindful of the project profitability by reducing redundancies across layers
- Report – weekly / monthly
- Ensuring the highest quality standards in all client deliverables

- Manage external resource partners as necessary
- Diligently work to identify process improvements related to program management including but not limited to briefing, workflow, communications and software platforms

Desired skills:

- Excellent writing / verbal skills
- Flexible & can multi-task and deliver under tight deadlines
- Must demonstrate a strong understanding of business communication/digital marketing
- Focuses efforts on achieving CLEAR objectives aligned to agency and client strategic imperatives.
- Create strong and effective internal partnerships and collaborates across the business; listens and values the opinions of others.
- Is an effective team member; supports the team by pitching in at any level and effectively working across the organization to meet the needs of the business
- Takes ownership of personal actions and outcomes; encourage and empowers others to do the same
- Proactively seek opportunities to increase knowledge, skills and abilities
