Open Position: Customer Outcome Manager

Introduction

XBE is a premier software company revolutionizing the horizontal construction sector with our advanced operational management solutions. Our mission is to transform operations management through a continuously evolving solution, offering an integrated suite of features for materials, logistics, and construction. We are dedicated to driving efficiency, accelerating growth, and managing risk by addressing operational inefficiencies, reducing costs, and fostering collaboration. Our platform stands out for its commitment to results, collaboration, and a vibrant community, supported by tools that ensure seamless integration and optimization.

As we embark on a path of growth and innovation, we are in search of a Customer Outcome Manager who embodies our core values of maturity, innovation, and collaboration. This crucial role involves guiding clients to fully leverage XBE solutions for a competitive edge. If you are meticulous, excel in customer interactions, and are passionate about fostering continuous improvement and success, your next career milestone awaits with us.

Location : Remote

Timings : Work hours are structured as 8-hour shifts per day within a 5-day work week during US Business Hours.

Compensation Details:

The selected candidate will be engaged as a Professional Consultant with a competitive compensation package of ₹ 10.8 LPA. The salary is fully in-hand except for a 10% Tax Deducted at Source (TDS) as per Indian tax regulations, without any other contributions such as Provident Fund (PF), Employee State Insurance (ESI), or other employer benefits.

Key Responsibilities:

- Champion the onboarding process, initiating and leading kickoff meetings with new clients to establish detailed implementation strategies.
- Address customer needs promptly, including training, bug fixes, or data adjustments, ensuring responsiveness ideally within 24 hours to align with XBE's standards.
- Assess customer project productivity and efficiency, striving for optimal performance.
- Educate users on XBE solutions' latest features, enhancing their experience and utility.
- Collaborate with the product development team to ensure alignment between customer needs and the product roadmap.
- Innovate by suggesting new features and enhancements to improve the customer experience.
- Create educational content, such as how-to videos, to empower users to fully leverage XBE solutions.
- Implement change management strategies to facilitate smooth client transitions and adoption.
- Oversee a range of projects, ensuring meticulous attention to deliverables and timelines.

Requirements:

- Demonstrated expertise in problem-solving, analytical thinking, and effective communication.
- Proven ability to manage multiple priorities, maintaining a customer-centric approach at all touchpoints.
- A commitment to continuous personal development and fostering customer growth.
- While no specific educational or experiential prerequisites are mandated, a robust general knowledge base is essential.
- Familiarity with horizontal construction is advantageous, but not mandatory. However, a genuine interest in the industry is desirable.

A Glimpse into a Typical Week:

- Kick off the week with a new customer implementation meeting.
- Address and resolve any urgent customer service requirements.
- Dive into the analysis of customer projects, drawing actionable insights.
- Collaborate on product enhancements and feature brainstorming sessions.
- Record insightful how-to videos for user education.
- Work on project management, keeping every stakeholder in the loop.

Culture and Values at XBE:

At XBE, we pride ourselves on a culture of collaboration, with a significant emphasis on individual responsibility. This role is perfect for those who relish autonomy and are motivated by the prospect of making a tangible impact. If you are drawn to the world of construction technology and are passionate about driving customer success, we would love to hear from you. Please submit your resume and a cover letter detailing your alignment and enthusiasm for this role.

Together, let’s build a brighter, smarter future!
